- Rear LH tire measures 22/32nds, or 40% Remaining.
- Rear RH tire measures 50/32nds, or 90% Remaining.

This is a pretty clean CAT 627G scraper, showing some higher hours, but well maintained by a national corporation prior. Strictly a dirt machine, no rock history. The bowl is good, all rollers are good, the hitch pins and bushings are above average tight, with no known leaking cylinders or hoses. All brakes adjusted and working. This is 1 of 3 machines we have available from same company.

We invite your own personal or 3rd party inspection of this machine anytime, located at our facility in Bellevue, Iowa. We offer Fair freight rates to any end point, and excellent financing programs if needed.
