- 31'6" Total dig depth with this stick and boom configuration.

Undercarriage measures as follows, based on new book scale of 120% remaining:

- Rail/Chain height measure 85% remaining.
- Links/Bushings on rails measure 68% remaining.
- Pads/Grousers – 115% remaining, 40" wide track pads.
- Front Idlers – 120% remaining.
- Qty 18 Bottom rollers – average 112% remaining.
- *We can provide buyer with additional bucket, stick, or attachment options upon request, and at additional cost.*

• Machine breakdown and load out for shipping is included free in the price of this machine. We take great pride in the detailed and professional plugging of all open hydraulic lines, and detailed accounting of all hardware, pins, shims, and accessories. We can arrange transport to any end point for the buyer.

This machine is just in from a dirt development company, it's a solid and sound machine both mechanically and cosmetically. The Cylinders are Dry, the Linkages are Tight. We just relined the bucket floor with AR400 steel.

We have called in the local Komatsu Dealer to perform a complete quality assurance pressure testing of all functions to Komatsu Spec, and also performing a complete machine inspection. We will email you the documentation on request.

We invite your own personal or 3rd party inspection of this machine anytime, located at our facility in Bellevue, Iowa. We offer Fair freight rates to any end point, and excellent financing programs if needed.

Call sales at 563-872-4112. If you prefer to text, text Josh @ 563-590-9903, or email sales@jjscheckel.com.

Machine Price: \$668,000
