This machine came right off a mine site closure. There is a long history of CAT Dealer service to the machine, however no prior rebuild paperwork or documentation for the components exchanged in-house through our purchase date as there were no available employees to give history.

We performed a Complete CAT TA2 Pressure testing report for this machine, and are currently in the process of several other work order related services. Please call or email to have additional information and documentation emailed to you.

Machine load out for shipping is included free in the price of this machine. Detailed and professional plugging of all open hydraulic lines, detailed accounting of all hardware, pins, and accessories, is something we take great pride in. We can arrange freight to any endpoint.

We invite your own personal or 3rd party inspection of this machine anytime, located at our facility in Bellevue, Iowa. We offer fair freight rates to any end point, and excellent financing programs if needed.
