Wow, they don’t come any cleaner. Prior woodchip machine. Original paint, take a close look at the track frames and machine, this has been a true easy duty 1 owner machine since new. Take a machine like this and perform a CAT Powertrain Rebuild, and it would be like new. The machine came right off of chip pile running daily with no known problems. We installed the U Blade, and we can give credit to buyer if you don’t want the blade.
