» jjscheckel.com/product/long-reach-strong-boom-package-to-fit-cat-374-excavators-a03166/

Description

J. Scheckel has these packages specifically contract manufactured with High Strength, Q690 MPA, 100,000 PSI Structural Steel. Built for us at one of the leading builders of specialty booms in the world. We call these our “Strong Booms” as we have specially spec’d these built with as high quality material and construction as available, we use these booms ourselves and they are as rock solid and high quality as anything made anywhere in the world. furthermore, we use Hardox Steel on the bucket wear areas including the cutting edge. We have designed these kits to be the very best value of quality and price that is available anywhere in the market. **Read the Details:**

Each Boom Package includes the following.

- 42’ Boom, with attached Stick cylinder.
- 34’ Stick, with attached bucket linkage and Bucket Cylinder
- 1.64 Yard, 49” wide Clean Out Bucket.
- 6 Ton Counterweight attachment.

- All OEM Caterpillar/USA Style fittings and Hoses.
 - All pins needed for installing Stick, and Bucket.
 - This package is designed to re-use the machines original Boom Lift cylinders as these are not included in package.
-
- Weight of the Boom sections and bucket is 31,640 pounds, plus additional 12,000 pounds for the Counterweight. Total package weight is 43,640 pounds.
-
- Please note, when comparing long reach boom packages on the market, don't make a mistake to compare on pricing alone, remember that most imported long reach boom packages that you see at auctions and wholesalers, are made with cheap, low strength steel, and do not include the extra hydraulic cylinders and heavier counterweight. There is a huge difference in quality and safety.

We invite your own personal or 3rd party inspection of this machine anytime, located at our facility in Bellevue, Iowa. We offer Fair freight rates to any end point, and excellent financing programs if needed.
