This machine came directly in from an Earthmoving Contractor Company Dispersion. It would be hard to find a nicer one for the price, it has had excellent preventative care, and is nice as they come.

The Universal Rotor option this machine is equipped with, is recommended for thin, medium, and thick Asphalt Reclamation, 1” to 10” plus. Also recommended for Soil mixing and stabilization on granular, granular with rocks, and light clay applications. It is also a recommended Rotor for Surface mining, on Coal, Shale and limestone.

We invite your own personal or 3rd party inspection of this machine anytime, located at our facility in Bellevue, Iowa. We offer Fair freight rates to any end point, and excellent financing programs if needed.
