

MassX “Rock Eater” Boom Ripper System, fits Cat 390 & 395 Excavators

jjscheckel.com/product/massx-rock-eater-boom-ripper-system-to-fit-cat-390-395-excavators/

MassX “Rock Eater” Boom Ripper System for Cat 390FL & 395 Excavator Series.

Brand New, “The ORIGINAL” Extreme High Leverage, High Weight, MassX “Rock Eater” Boom, Stick, and Ripper system. Perform production ripping projects in frost and rock, not previously possible with the largest dozers or ripper attachment. Proven with thousands of hours with some of the nation’s largest mining contractors. Read the Details:

- Boom Weight – 32,000 pounds
 - Stick weight – 34,000 pounds
 - Ripper weight – 4,000 pounds
 - Total Package weight – 70,000 pounds
- System proven, Extreme force, extreme leverage, heavy Ripper Attachment. Designed to utilize your CAT 390/395 machine size and weight to rip Rock and Frost where previously thought un-rippable. Exceeds ripping force that was available with Cat D11 tractor. These booms are much different than a standard ripper tooth on the end of an excavator. These are engineered to use the extreme weight, and the extreme force and leverage, to effectively dedicated rip in rock or frost daily without breaking.

- These are the original, proven engineered units made with Q345B high strength structural steel, automatic computer-controlled welding where possible on the boom sections, internal gusseting, and the very best quality product on the market that has been proven to stand up to extreme service.
- All hydraulic cylinders included with this boom attachment, except the boom lift cylinders; use your machine's factory boom lift cylinders.

These ORIGINAL "Rock Eater" Booms are engineered, and manufactured exclusively for MassX, with all updates and improvements manufactured back into the product. We invite your own inspection of this attachment anytime, located at our facility in Bellevue, Iowa. We offer fair freight rates to any end point, and financing programs if needed.
